Sustainable Growth Advisers, LP ("SGA") was formed in 2003 and is a registered investment advisor under the Investment Advisers Act of 1940. SGA manages portfolios of publicly traded equity assets according to its "Large Cap Growth Equity" investment approach for pooled funds, institutions, trusts and private accounts. SGA is an operationally independent investment management firm and is an affiliate of Virtus Investment Partners. The SGA Emerging Markets Growth Composite was created in January 1, 2015. The firm maintains a complete list and description of all composites, which is available upon request.

Sustainable Growth Advisers, LP claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Sustainable Growth Advisers, LP has been independently verified for the periods July 1, 2003 – December 31, 2022.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The SGA Emerging Markets Growth composite has had a performance examination for the periods August 1, 2014 - December 31, 2022. The verification and performance examination reports are available upon request.

The SGA Emerging Markets Growth Composite contains fee paying and non-fee paying discretionary global large cap emerging growth equities that invests in companies around the world that are direct beneficiaries of the rapid emergence of the middle class across many developing economies and its related wealth creation. For comparison purposes the composite is measured against the MSCI Emerging Markets Growth Net and MSCI Emerging Markets Net Total Return Indices. The benchmarks are the most widely followed indices to track emerging market performance. The indices reinvest dividends after the deduction of withholding taxes, using a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties. The net total return indices are most representative of what a passive investor in the index could expect to achieve taking into account the price level movements, dividends and taxes that are withheld on those dividends. Effective December 31, 2022, the MSCI ACWI with EM Exposure Net is no longer presented because it is not considered representative of the strategy as the portfolio invests primarily in companies domiciled in emerging markets.

The composite calculation has been appropriately weighted for the size of each portfolio on a time-weighted, total return basis. Monthly portfolio returns have been used in the construction of the composite. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm.

The U.S. Dollar is the currency used to express performance. Results are presented gross and net of management fees and include the reinvestment of all income. For interest and capital gains, SGA does not withhold taxes. For dividends, SGA will withhold taxes as reported by the Client's custodian. Returns are calculated net of withholding taxes on dividends. The Net Returns are calculated based upon the highest published fees. The net performance has been calculated by reducing the gross performance by the amount of the highest published fee that may be charged to SGA clients, 0.85%, employing the Emerging Markets Growth strategy during the period under consideration. Actual fees charged to clients may vary depending on, among other things, the applicable fees schedule and portfolio size. SGA's fees are available upon request and also may be found in Part 2A of its Form ADV. The annual dispersion presented is an asset-weighted standard deviation calculated using gross returns for the accounts in the composite the entire year. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. **Past performance is not indicative of future results.**

The standard investment management fee schedule for the firm is 0.85% on the first \$25 million; 0.65% on the next \$75 million and 0.50% over \$100 million. Actual investment advisory fees incurred by clients may vary from the standard fee schedule.
