Since Inception (Feb. 1, 2011)	14.87%	13.91%	9.88%	12.54%			13.96%*	13.71%*	13.99%*		

N/A- Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year. The 3 Year Annualized Standard Deviation for years 2011, 2012, and 2013 is not shown as 36 months or returns not available

* Since Inception Annualized Standard Deviation. SGA Composite Dispersion based on Gross Returns.

Sustainable Growth Advisers, LP ("SGA") was formed in 2003 and is a registered investment advisor under the Investment Advisers Act of 1940. SGA manages portfolios of publicly traded equity assets according to its "Large Cap Growth Equity" investment approach for pooled funds, institutions, trusts and private accounts. SGA is an operationally independent investment management firm that is an affiliate of Virtus Investment Partners. The SGA Global Growth Composite was created in February 2011. The firm maintains a complete list and description of all composites, which is available upon request.

Sustainable Growth Advisers, LP claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Sustainable Growth Advisers, LP has been independently verified for the periods July 1, 2003 – December 31, 2021.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The SGA Global Growth composite has had a performance examination for the periods February 1, 2011 - December 31, 2021. The verification and performance examination reports are available upon request.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

SGA Global Growth Composite contains fee-paying large cap global growth equity portfolios under full discretionary management of the firm. For comparison purposes the composite is measured against the MSCI ACWI Growth TR Index (Net) and MSCI ACWI TR Index (Net).

Effective March 31, 2014 SGA has elected to retroactively change the primary performance benchmarks for the firm's Global Growth equity strategy from the MSCI All Country World Index (ACWI) Gross and MSCI All Country World Growth Index (ACWI Growth Gross) with the MSCI ACWI Growth Net Total Return and MSCI ACWI Net TR as a secondary benchmark. The reason for the change from the gross version of the benchmarks to the net version of the benchmarks is to present a more appropriate comparison benchmark and better align with industry standards in terms of performance calculations and reporting for global equity products. The MSCI ACWI and MSCI ACWI Growth net total return indices reinvest dividends after the deduction of withholding taxes, using a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties. The net total return indices are most representative of what a passive investor in the index could expect to achieve taking into account the price level movements, dividends and taxes that are withheld on those dividends.

Effective June 30th, 2013 SGA had elected to change the primary performance benchmark for the firm's Global Growth equity strategy from the MSCI World Growth Index and MSCI World Total Return Index to the MSCI All Country World Index (ACWI) with the MSCI All Country World Growth Index (ACWI Growth) as a secondary benchmark. This change was made in recognition of the fact that SGA's investment team has the ability to invest in emerging market domiciled companies and a benchmark that includes both developed and emerging markets such as the MSCI ACWI most accurately reflects the opportunity set from which client portfolios in the composite are built. It should be noted that SGA is benchmark indifferent in terms of stock selection and portfolio construction and this change was made in order to reflect current industry standards for performance reporting and benchmarking of Global mandates that have the ability to invest in both developed and emerging markets.

The composite calculation has been appropriately weighted for the size of each portfolio on a time-weighted, total return basis. Monthly portfolio returns have been used in the construction of the composite. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm.

The U.S. Dollar is the currency used to express performance. Results are presented gross and net of management fees and include the reinvestment of all income. For interest and capital gains, SGA does not withhold taxes. For dividends, SGA will withhold taxes as reported by the Client's custodian. Returns are calculated net of withholding taxes on dividends. The Net Returns are calculated based upon the highest published fees. The net performance has been calculated by reducing the gross performance by the amount of the highest published fee that may be charged to SGA clients, 0.85%, employing the Global Growth strategy during the period under consideration. Actual fees charged to clients may vary depending on, among other things, the applicable fees schedule and portfolio size. SGA's fees are available upon request and also may be found in Part 2A of its Form ADV. The annual dispersion presented is an asset-weighted standard deviation calculated using gross returns for the accounts in the composite the entire year. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. **Past performance is not indicative of future results.**

The standard investment management fee schedule for the firm is 0.85% on the first \$25 million and 0.65% on the next \$75 million and 0.50% over \$100 million. Actual investment advisory fees incurred by clients used in the composite may vary from the standard fee schedule.
